## 15 YEARS STRONG

Greeley Farms Landscaping was established in 2005, with one employee, one truck, and a shovel. In the past 15 years we have expanded to a group of the best employees in the business, a fleet of trucks, and all the necessary equipment for full-scale excavation and landscape construction.

Greeley Farms Landscaping operates out of the original family farm in Wilton, NH. Occupying 100+ acres that house the office headquarters, and maintenance and materials center.

## WHO WE ARE

Greeley Farms is your premier landscape contractor. Based in the Wilton & Milford area, we proudly serve southern New Hampshire and northern Massachusetts with the highest level of quality and attention to detail.

# WHO WE ARE

## Next level quality

**G**reeley Farms is your premier landscape contractor. Based in the Wilton & Milford area, we proudly serve southern New Hampshire and northern Massachusetts with the highest level of quality and attention to detail. Greeley Farms Landscaping is co-owned and operated by Brendon Greeley and Ross Kukish, both New Hampshire natives. Based in Wilton, Greeley Farms Landscaping Provides quality landscaping services to southern New Hampshire and Northern Massachusetts.

Most of employees have left organizations that prioritize quantity of quality. Greeley Farms' commitment to our clients boils down to quality. We realize pricing can often be a large factor in the client's decision making process, but we prioritize quality first. It is important to us that our client not only receives a good price, but the best value. From a 1-yard load delivery to a full designed/built landscape. We are committed to quality landscape products and services. Individuals may receive a cheaper price from our competitors, but our quality is unparalleled.

Greeley Farms fosters an environment where our greatest commitment is overall quality, detail and customer satisfaction, fully embodying the mentality of "do it once, do it right." Greeley Farms enables their employees to optimize their creativity and attention to detail, and push teams and individuals to put their skills to the test.

# Family & Employee Prioritization

## Our Employees Are Our Company

### Team-first

The customer is not always right. Yes, you did read that correctly. Greeley Farms strives to meet and exceed all customers' expectations, but our employees are our primary focus. We love our customers, but our employees are considered family from day one.

We do everything in our power to foster trust and a sense of belonging to all our employees, at all levels. Employees are not just the face of the company; they are our company. We operate as a team, but we create an organizational culture of ownership and responsibility. As a team we share each other's accomplishments and short-comings as a whole.

**Self-Optimization.** We offer internal training and development opportunities to hone the skills of all employees at all skill levels. The organization will never cease growing, and we expect the same from our employees.

Do you want to be a stone mason? We will teach you. Are you already a stone mason? We will give you the tools and education to take your skills to the next level. Do you want to learn how to instill low-voltage lighting? We will teach you. Never driven an excavator? We will teach you.

**Results-driven.** As mentioned, our team values transcend the idea of just a group of people, we are a family. But our pay-scale is individualistic and based on results, not effort, not time with company, not likeability, just your results, commitment to the organization, and your skin in the game.

We offer competitive pay, steady hours, and a bonus structure for individuals in supervisory/leadership roles. There is limitless potential for growth, pay, and training within the company. Come join the winning team and be a part of the family today.

# Skill Development

*"I didn't have a clue as to what I was mentally and physically capable of, until started working at Greeley Farms. They've given me skills that are applicable to all of life's challenges."*

*-Stone Mason (10 years experience, 3 years with Greeley Farms)*

Our primary goal in employee development is to enable employees with the necessary skills to operate in a decentralized fashion. There cannot always be someone there to hold the hand of employees through all minute details. We develop all employees to be leaders and provide them with the self-confidence to take on and lead jobs independently.

This is not an overnight thing, and we coach, teach, and mentor those in supervisory/management roles with skills to develop their subordinates. The key factor in this mix, is work ethic. You will not see anyone leaning on a shovel at a Greeley Farms job site. Everyday is a competition not just with you peers, but with yourself, to see what you are really capable of, and your pay will be a direct reflection of that.

As technology and industry operating procedures change, we adapt and change with them. We are always progressing, always learning, and always striving to be the best, hire the best, and retain the best. So what do you say? Are you ready?
